

Residents and Employees of Chesterfield Township:

March 12, 2020

The Supervisor's Office, along with the management team at Chesterfield Township, has been working for the past week on contingencies and preparations of the impact of COVID-19 (Novel Coronavirus). We want to ensure our employees, residents, and customers that the Township will continue to receive guidance and coordinate closely with experts from the Macomb County Health Department, the Michigan Department of Health and Human Services and federal agencies, specifically the Center for Disease Control and Prevention.

The Charter Township of Chesterfield is committed to the well-being and safety of our employees, residents and customers. The Township will continue to forward information and communicate updates regarding specific events, activities, and process changes which may impact the services Chesterfield Township is charged with providing. Some specific actions and recommendations are detailed below.

We all must participate by working together to contain the spread of the virus by encouraging individuals to continually utilize healthy habits. Below are some guidelines that will slow the spread of the virus, with the goal of attempting to reduce potential strains on our health care system.

- Wash your hands often for at least 20 seconds.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Utilize elbow bumps in lieu of shaking hands.
- Avoid close contact with people who are sick.
- If you have a fever, a persistent cough, and/or shortness of breath, please attempt to stay home.
